STRIKE SPREADS OVER NEW YORK

TROLLEY LINES TIED UP TIGHT ALL THE WAY UP TO HARLEM

(By Associated Press.) NEW YORK, July 31.—The Third avenue strike spread today to Harlem and Washington Heights and not a car is running. Edward Maher, general manager of the company, said he would fight the strikers "to a finish." William D. Mahon, president of the union, said the men will fight until he has organized the employees of every traction company in the city.

WEEKLY FORECAST

Rocky mountain and plateau regions: Temperatures during the week will average near the seasonal normal with generally fair weather over the plateau region and local thunder-showers over the Rocky mountain region.

Pacific states: The week will be one of generally fair weather with temperatures somewhat below the seasonal average.

REMARKABLE ESCAPES IN THE BIG EXPLOSION

(By Associated Press.) NEW YORK, July 31, 6 p. m.—The police have added one to the list of dead, making a total of four in the Black Tom island explosion.

The commissioner of public safety charges the blame for the explosion lays either with the Lehigh Valley railroad, the storage company or the lighterage company; that some of them had violated the laws by permitting barges of loaded explosives

ELECTRIC LIGHTED SLEEPERS PUT ON THE TONOPAH RUN

Train No. 24 this morning brought in the first electric lighted and electrically cooled Pullman that has ever been seen on this run. The innovation is the result of representations by Manager Forster to render travel across the desert as comfortable as possible. Hereafter all sleepers on Nos. 23 and 24 will have electric fans and lights operated from a dynamo in the baggage car.

ROUND MOUNTAIN PUBLIC LIBRARY

Largely through the efforts of Mrs. James Cockerille, Round Mountain is favored with a "free public library" that opens its doors tomorrow. Over 300 volumes are comprised by the collection on the shelves, representing the best authors. Quarters have been secured in Tarbell's hotel and the reading room has been tastefully fitted up so as to make it an attraction for the men working in the vicinity whose list of diversions is rather limited. The Daily Bonanza may be found on file at all times.

J. W. FINCH NEEDS MINE SYNDICATE

APPOINTED CHIEF ENGINEER OF CHINA EXPLOITING COMPANY AT SALARY OF \$100,000

John Wellington Finch, former manager of the Goldfield Consolidated and who was one of the most important witnesses for the Jim Butler in the West End apex case, has been appointed to one of the most lucrative offices in the history of the engineering world. He becomes the head of an American syndicate organized for the exploitation of China resources and will sail for that country on the tenth of August. The appointment carried with it a salary of \$100,000, which is said to be the figure John Hays Hammond received when he was exploiting at Transvaal.

Mr. Finch will proceed to Shanghai, which will be his headquarters. He will have two or three American engineers as assistants and a comprehensive study of the resources of China will be made by his party. "There is every reason to believe that the situation in China is rapidly clearing and that the country soon will be open for exploitation," said Mr. Finch to a friend. "I am going over to study conditions and will be prepared to investigate the resources of the country. Our syndicate is not alone interested in mining, but in the general development of the country. What is needed is modern methods and plenty of money, and our syndicate is prepared to give the money and the methods."

The syndicate which Mr. Finch will represent will build railroads, irrigation systems, and in all lines of industry will furnish the money for development. Particular attention will be paid to mining. There has been considerable mining in China, but it has not been along the systematic lines that prevail in other parts of the world. It is understood that China
